IRISES

SEASON OF 1931

Each year more and more enthusiasm is manifested for the most colorful of all flowers, the bearded iris. Hybridizers continue to bring out marvelous new color combinations with stems and flowers of better form and more substance and we are told more surprises are in store for the immediate future.

On account of an unusually good growing season I am enabled to offer some of the very finest productions at remarkably low prices. You will find exceptional values in each of the collections offered on the last page of this price list.

Good, strong rhizomes, unexcelled in quality, with a fine root system will be sent, properly labeled and packed insuring their starting into vigorous growth when planted. Shipments will be made from about July 5th to November 1st, as customers desire.

All varieties are true to name. Satisfactory adjustment will be made on any proving otherwise.

Prices quoted are prepaid on orders of \$2.00 and over. Under \$2.00, add 25c for postage.

Discounts: Except on collections and varieties marked Net, the following discounts are allowed: On orders of \$10.00 to \$25.00 discount 10%; orders of \$25.00 to \$50.00 discount 15%; orders over \$50.00 discount 20%.

Ratings: On the basis of 100 for perfection, ratings voted by members of the American Iris Society precede names of varieties. The first number is the exhibition rating, second number the garden rating.
